Experience

SEPT 2023 - Present

Fricanet Technologies | Front-end Developer | Lagos Nigeria

- Collaborated with a cross-functional team to design and implement user-facing features for the company's flagship web application using JavaScript and React.js.
- Worked closely with UI/UX designers to ensure the seamless integration of design elements and responsiveness across various devices.
- Participated in code reviews to maintain code quality, identify potential issues, and mentor junior developers.
- Implemented and maintained RESTful APIs to support data exchange between the frontend and backend systems

2022 - 2023

Foyem Group | IT Support | Lagos Nigeria

- Managed and maintained IT inventory, including hardware and software assets.
- Installed and configured operating systems and software applications.
- Diagnosed and resolved hardware and software issues, ensuring minimal downtime for end-users.
- Responded to help desk tickets, escalating and prioritizing issues as needed.
- Assisted in the implementation and maintenance of IT security measures.

Education

The Polytechnic Ibadan | Nigeria, OND

Feb 2021 | Google Africa Developer Training
Jan 2021 | Front-end Libraries - Free Code-Camp
Feb 2022 | Google UX Design
July 2021 | Google IT Support
